- (B) The expression “**Employee Benefit**” means a benefit whereby eligible employees may, through the Hastee App or via the Hastee visa debit card (“**Hastee Card**”), request that they receive part of their accrued salary or wages for immediate payment (a “**Withdrawal**”) rather than at the next scheduled pay day, in accordance with the terms of use for the Hastee mobile application (“**Hastee App**”) which can be accessed via the Hastee App (“**App User Terms**”). It also covers the provision of advice pertaining to personal finance that your Employer has requested we provide as part of our performance of the Client Contract (the “**Financial Education Series**”).
- (C) Your Employer has engaged us under a separate contract (the “**Client Contract**”) to make the Employee Benefit available to you. You may access the Employee Benefit via the Hastee App or the Hastee Card.

We respect your privacy and we want to be transparent with you about what personal data we collect and why. This policy (“**Privacy Policy**”) explains the personal data we collect from you, either directly or indirectly, and how we will use it. OUR USE OF COOKIES AND OTHER SIMILAR TECHNOLOGIES

What are cookies?

We may collect information using “cookies”. Cookies are small data files stored on the hard drive of your computer or mobile device by a website. We use them to distinguish you from other users of the Hastee Technology and to remember your preferences. This helps us to provide you with a good experience when you use the Hastee Technology and also allows us to improve it. We may use both session cookies (which expire once you close your web browser) and persistent cookies (which stay on your computer or mobile device until you delete them) to provide you with a more personal and interactive experience.

Categories of cookies

The Hastee Technology uses two broad categories of cookies:

- First party cookies, served directly by us to your computer or mobile device; and
- Third party cookies, which are served by our partners or service providers.

Type & purposes of cookie use

The Hastee Technology uses the following types of cookies for the purposes set out below:

- **Essential cookies:** to provide you with services available through the Hastee Technology to enable you to use some of its features. For example, they allow you to log in to secure areas of the Hastee Technology and help the content of the pages you request to load quickly. Without these cookies, the services that you have asked for cannot be provided, and we only use these cookies to provide you with those services.
- **Functional cookies:** to allow the Hastee Technology to remember choices you make when you use the Hastee Technology, such as remembering your language preferences, login details and any aspects of the Hastee Technology which you can customise. The purpose of these cookies is to provide you with a more personal experience and to avoid you having to re-enter your preferences every time you visit the Hastee Technology.
- **Analytics and performance cookies:** to collect information about traffic to the Hastee Technology and how it is used. The information gathered via these cookies does not “directly” identify any individual user.

However, it may render such visitors “indirectly identifiable”. This is because the information collected is typically linked to a pseudonymous identifier associated with the device you use to access the Hastee Technology. The information collected is aggregated and anonymous. It includes the number of visitors to the Hastee Technology, the websites that referred them, the pages they visited, what time of day they visited it, whether they have visited the Hastee Technology before, and other similar information. We use this information to help operate the Hastee Technology more efficiently, to gather broad demographic information and to monitor the level of activity on the Hastee Technology.

- We use Google Analytics for this purpose. Google Analytics uses its own cookies. It is only used to improve how the Hastee Technology works. You can find out more information about Google Analytics cookies here: <https://developers.google.com/analytics/devguides/collection/analyticsjs/cookie-usage>
- You can find out more about how Google protects your data here: www.google.com/analytics/learn/privacy.html
- **Targeting Cookies:** these will collect information about your browsing habits and allow us to deliver content and functionality that best suits you and your interests while you are browsing our site and other sites on the Internet.
- **Social Media Cookies:** these cookies are set by a range of social media services that we have added to the site to enable you to share our content with your friends and networks. They are capable of tracking your browser across other sites and building up a profile of your interests. This may impact the content and messages you see on other websites you visit.

Disabling cookies

You can typically remove or reject cookies via your browser settings. In order to do this, follow the instructions provided by your browser (usually located within the “settings”, “help” “tools” or “edit” facility). Many browsers are set to accept cookies until you change your settings.

If you do not accept our cookies, you may experience some inconvenience in your use of the Hastee Technology. For example, we may not be able to recognise your computer or mobile device and you may need to log in every time you visit the Hastee Technology.

Further information about cookies, including how to see what cookies have been set on your computer or mobile device and how to manage and delete them, visit www.allaboutcookies.org and www.youronlinechoices.com.uk.

You can also prevent the use of Google Analytics relating to your use of the Hastee Technology by downloading and installing the browser plugin available via this link: <http://tools.google.com/dlpage/gaoptout?hl=en-GB>

Mobile Privacy

Although you do not have to provide your location information to us to use our Hastee Technology, your Employer may require a postcode or geolocation as part of its provision of the Employee Benefit to you and we therefore require it to enable our Hastee App to function to deliver the Services to your Employer. For example, where your Employer requires you to check in and check out of a work or job location to prove your physical presence or the time at which you started / ended your work. If you request that we confirm your location or IP address, we may use your geolocation information to do so. Our Hastee Technology may also tell us the region of the world in which you are located when you use the Hastee Technology. If you have questions about location and notification privacy, please contact your mobile service provider or the manufacturer of your device to learn how to adjust your settings.
